| <b>Applications</b>       | ELISA, Neutralization                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>Target</b>             | NAALAD1, Prostate-specific membrane antigen, NAALADase I, PSMA, PSM, Pteroylpoly-gamma-glutamate carboxypeptidase, Glutamate carboxypeptidase 2, N-acetylated-alpha-linked acidic dipeptidase I, Glutamate carboxypeptidase II, FOLH1, FGCP, FOLH, Folylpoly-gamma-glutamate carboxypeptidase, Folate hydrolase 1, GCPII, Membrane glutamate carboxypeptidase, Cell growth-inhibiting gene 27 protein, mGCP |
| <b>Purification</b>       | Protein A/G purified from cell culture supernatant.                                                                                                                                                                                                                                                                                                                                                         |
| <b>Endotoxin level</b>    | Please contact with the lab for this information.                                                                                                                                                                                                                                                                                                                                                           |

---

**Recombinant Proteins & Antibodies**

**Accession** Q04609

**Stability and Storage** Use a manual defrost freezer and avoid repeated freeze-thaw cycles.  
Store at 4°C short term (1-2 weeks). Store at -20°C 12 months. Store at -80°C long term.

**Note** For research use only. Not suitable for clinical or therapeutic use.
