

Anti-Neu5Ac/O-sialic acid/Polysialic acid Antibody (Ab735)

Summary

Catalog No. RGK29702

Clone ID Ab735

Host species Mouse

Species reactivity General

Form Liquid

Storage buffer 0.01M PBS, pH 7.4.

Concentration 2.04 mg/ml

Purity >95% as determined by SDS-PAGE.

Clonality Monoclonal

Isotype IgG2a

Applications ELISA, FCM, ITC, WB

Polysialic acid, alpha(2,8)-linked sialic acid polysaccharide, α -2,8-linked

Target sialic acid polymer, SIA, O-Sialic acid, α -Neu5Ac, N-acetyl- α -neuraminic

acid

Purification Protein A/G purified from cell culture supernatant.

Endotoxin level Please contact with the lab for this information.

Accession ChEBI: 48428, ChEBI: 17012, ChEBI: 26206, ChEBI: 49026

Recombinant Proteins & Antibodies

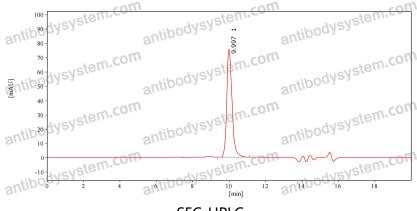

Use a manual defrost freezer and avoid repeated freeze-thaw cycles.

Stability and Storage Store at 4°C short term (1-2 weeks). Store at -20°C 12 months. Store at -

80°C long term.

Note For research use only.

Data Image

The purity of this product is >95% as determined by SEC-HPLC.
