

## Anti-Human CCL21/6Ckine Polyclonal Antibody

## Summary

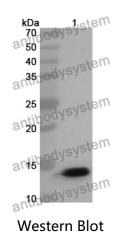

| Catalog No.           | PHA16401                                                                                                                                                                  |
|-----------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host species          | Rabbit                                                                                                                                                                    |
| Tested applications   | ELISA: 1:4000-1:8000, IHC: 1:50-1:100, WB: 1:1000-1:4000                                                                                                                  |
| Species reactivity    | Human                                                                                                                                                                     |
| Immunogen             | E. coli - derived recombinant Human CCL21/6Ckine (Ser24-Pro134).                                                                                                          |
| Form                  | Liquid                                                                                                                                                                    |
| Storage buffer        | 0.01M PBS, pH 7.4, 50% Glycerol, 0.05% Proclin 300.                                                                                                                       |
| Clonality             | Polyclonal                                                                                                                                                                |
| Isotype               | IgG                                                                                                                                                                       |
| Applications          | ELISA, IHC, WB                                                                                                                                                            |
| Target                | C-C motif chemokine 21, SCYA21, Small-inducible cytokine A21, CCL21,<br>Beta-chemokine exodus-2, 6Ckine, Secondary lymphoid-tissue<br>chemokine, SLC                      |
| Purification          | Purified by antigen affinity column.                                                                                                                                      |
| Accession             | O00585                                                                                                                                                                    |
| Stability and Storage | Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8°C for frequent use. Store at -20 to -80°C for twelve months from the date of receipt. |
| Note                  | For research use only.                                                                                                                                                    |
|                       |                                                                                                                                                                           |

🌱 AntibodySystem

Recombinant Proteins & Antibodies

Recombinant Protein lysates were subjected to SDS PAGE followed by western blot with CCL21/6Ckine antibody (PHA16401) at  $1 \mu$ g/ml.

Lane 1: Recombinant protein

Second Ab: Goat Anti-Rabbit IgG H&L Polyclonal antibody, HRP (PTB96431) at 0.1 µg/mL.

Predict MW: 15 kDa Observed MW: 15 kDa
