Anti-Neisseria meningitidis porA/Outer membrane porin protein Antibody (MN16C13F4)

Summary

Catalog No.	RXX13401
Clone ID	MN16C13F4
Host species	Human
Species reactivity	Neisseria meningitidis(Q9JPT2), Neisseria meningitidis(Q51220), Neisseria meningitidis serogroup B (strain MC58)(P0DH58)
Form	Liquid
Storage buffer	0.01M PBS, pH 7.4.
Concentration	1 mg/ml
Purity	>95% as determined by SDS-PAGE.
Clonality	Monoclonal
Isotype	IgG1
Applications	ELISA, SPR
Target	PorA, Outer membrane porin protein, Major outer membrane protein P.IA, Protein IA, PIA
Purification	Protein A/G purified from cell culture supernatant.
Endotoxin level	Please contact with the lab for this information.
Accession	Q9JPT2

Recombinant Proteins & Antibodies

	Use a manual defrost freezer and avoid repeated freeze-thaw cycles.
Stability and Storage	Store at 4°C short term (1-2 weeks). Store at -20°C 12 months. Store at -
	80°C long term.
Note	For research use only.
