

Anti-PGE2/Prostaglandin E2 Antibody (2B5)

Summary

Catalog No. RGN55301

Host species Mouse

Species reactivity General

Form Liquid

Storage buffer 0.01M PBS, pH 7.4.

Concentration 1.58 mg/ml

Purity >95% as determined by SDS-PAGE.

Clonality Monoclonal

Isotype IgG2a, kappa

Applications ELISA

Target PGE2, Prostaglandin E2, Dinoprostone

Purification Protein A/G purified from cell culture supernatant.

Endotoxin level Please contact with the lab for this information.

Accession ChEBI: 15551

Use a manual defrost freezer and avoid repeated freeze-thaw cycles.

Stability and Storage Store at 4°C short term (1-2 weeks). Store at -20°C 12 months. Store at -

80°C long term.

Note For research use only.
