

# Anti-NFKBIA Antibody (R1S97)

## Summary

---

|                            |                                                                                                                                                       |
|----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Catalog No.</b>         | RHD69001                                                                                                                                              |
| <b>Clone ID</b>            | R1S97                                                                                                                                                 |
| <b>Host species</b>        | Rabbit                                                                                                                                                |
| <b>Tested applications</b> | WB: 1:500-1:1000                                                                                                                                      |
| <b>Species reactivity</b>  | Human, Rat                                                                                                                                            |
| <b>Form</b>                | Liquid                                                                                                                                                |
| <b>Storage buffer</b>      | 0.01M PBS, pH 7.4, 0.05% BSA, 50% Glycerol, 0.05% Sodium azide.                                                                                       |
| <b>Concentration</b>       | 1 mg/ml                                                                                                                                               |
| <b>Purity</b>              | >95% by SDS-PAGE.                                                                                                                                     |
| <b>Clonality</b>           | Monoclonal                                                                                                                                            |
| <b>Isotype</b>             | IgG                                                                                                                                                   |
| <b>Applications</b>        | WB                                                                                                                                                    |
| <b>Target</b>              | NFKBI, Major histocompatibility complex enhancer-binding protein<br>MAD3, IκB-α, IκappaBα, I-κappa-B-α, IKBA, NF-κappa-B<br>inhibitor α, NFKBIA, MAD3 |
| <b>Purification</b>        | Protein A/G purified from cell culture supernatant.                                                                                                   |
| <b>Endotoxin level</b>     | Please contact with the lab for this information.                                                                                                     |
| <b>Accession</b>           | P25963                                                                                                                                                |

**Stability and Storage**

Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 4 °C for frequent use. Store at -20 °C for twelve months from the date of receipt.

**Note**

For research use only.

**Data Image**

---

Western blot

Western blot analysis of IKB alpha in Jurkat, C6 lysates using IKB alpha antibody.
