

Anti-KSHV/HHV8 ORF62 Antibody (R4D77)

Summary

Catalog No. RVV44501

Clone ID R4D77

Host species Mouse

Tested applications IHC: 1:200-1:1000

Species reactivity

Human herpesvirus 8 type P (HHV-8) (Kaposi's sarcoma-associated

herpesvirus)

Form Liquid

Storage buffer 0.01M PBS, pH 7.4, 0.05% Sodium Azide.

Concentration 1 mg/ml

Purity >95% as determined by SDS-PAGE.

Clonality Monoclonal

Isotype IqM

Applications IHC

Target ORF62

Purification Protein A/G purified from cell culture supernatant.

Endotoxin level Please contact with the lab for this information.

Use a manual defrost freezer and avoid repeated freeze-thaw cycles.

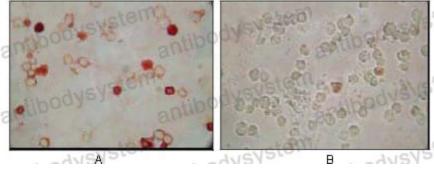

Stability and Storage Store at 4°C short term (1-2 weeks). Store at -20°C 12 months. Store at -

80°C long term.

Note For research use only.

Data Image

Immunocytochemistry analysis of TPA induced BCBL-1 cells (A) and uninduced BCBL-1 cells (B) using KSHV ORF62 mouse mAb with AEC staining.
