

Anti-KSHV/HHV8 ORF26 Antibody (R4D78)

Summary

Catalog No. RVV44601

Clone ID R4D78

Host species Mouse

Tested applications WB: 1:500-1:2000

Species reactivity

Human herpesvirus 8 type P (HHV-8) (Kaposi's sarcoma-associated

herpesvirus)

Form Liquid

Storage buffer 0.01M PBS, pH 7.4, 0.05% Sodium Azide.

Concentration 1 mg/ml

Purity >95% as determined by SDS-PAGE.

Clonality Monoclonal

Isotype IqG1

Applications WB

Target ORF26

Purification Protein A/G purified from cell culture supernatant.

Endotoxin level Please contact with the lab for this information.

Use a manual defrost freezer and avoid repeated freeze-thaw cycles.

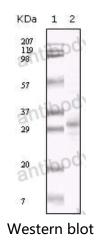

Stability and Storage Store at 4°C short term (1-2 weeks). Store at -20°C 12 months. Store at -

80°C long term.

Note For research use only.

Data Image

Western blot analysis using KSHV ORF26 mouse mAb against TPA induced BCBL-1 cell lysate.
