

# Recombinant Mouse CD79 $\beta$ /CD79B Protein, C-Fc

## Summary

---

|                                   |                                                                                                                                                                         |
|-----------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Catalog No.</b>                | EME26302                                                                                                                                                                |
| <b>Alternative Names</b>          | B-Cell Antigen Receptor Complex-Associated Protein Beta Chain, B-Cell-Specific Glycoprotein B29, Ig-Beta, Immunoglobulin-Associated B29 Protein, CD79b, CD79B, B29, IGB |
| <b>Form</b>                       | Lyophilized                                                                                                                                                             |
| <b>Storage buffer</b>             | Lyophilized from a 0.22 $\mu$ m filtered solution in PBS, pH 7.4.                                                                                                       |
| <b>Purity</b>                     | > 95% as determined by SDS-PAGE.                                                                                                                                        |
| <b>Applications</b>               | ELISA, Immunogen, SDS-PAGE, WB, Bioactivity testing in progress                                                                                                         |
| <b>Endotoxin level</b>            | < 1 EU/ $\mu$ g as determined by LAL test.                                                                                                                              |
| <b>Expression system</b>          | Mammalian Cells                                                                                                                                                         |
| <b>Accession</b>                  | P15530                                                                                                                                                                  |
| <b>Protein length</b>             | Val26-Asp158                                                                                                                                                            |
| <b>Nature</b>                     | Recombinant                                                                                                                                                             |
| <b>Predicted molecular weight</b> | 42 kDa                                                                                                                                                                  |
| <b>Stability and Storage</b>      | Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8°C for one week. Store at -20 to -80°C for twelve months from the date of receipt.   |
| <b>Reconstitution</b>             | Reconstitute in sterile water for a stock solution. A copy of datasheet will be provided with the products, please refer to it for details.                             |
| <b>Species</b>                    | Mus musculus (Mouse)                                                                                                                                                    |

**Shipping**

In general, proteins are provided as lyophilized powder/frozen liquid. They are shipped out with dry ice/blue ice unless customers require otherwise.

**Note**

For research use only.
