

# Recombinant Mouse CD112/Nectin-2/PVRL2 Protein, C-His

## Summary

---

|                                   |                                                                                                                                                                                                          |
|-----------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Catalog No.</b>                | EMJ32501                                                                                                                                                                                                 |
| <b>Alternative Names</b>          | CD112, nectin2, Herpes virus entry mediator B, Herpesvirus entry mediator B, HveB, Murine herpes virus entry protein B, mHveB, Poliovirus receptor homolog, Poliovirus receptor-related protein 2, Pvr12 |
| <b>Form</b>                       | Lyophilized                                                                                                                                                                                              |
| <b>Storage buffer</b>             | Lyophilized from a 0.22 µm filtered solution in 20mM PB, 150mM NaCl, pH 7.4.                                                                                                                             |
| <b>Purity</b>                     | > 95% as determined by SDS-PAGE.                                                                                                                                                                         |
| <b>Applications</b>               | ELISA, Immunogen, SDS-PAGE, WB, Bioactivity testing in progress                                                                                                                                          |
| <b>Endotoxin level</b>            | < 1 EU/µg as determined by LAL test.                                                                                                                                                                     |
| <b>Expression system</b>          | Mammalian Cells                                                                                                                                                                                          |
| <b>Accession</b>                  | P32507                                                                                                                                                                                                   |
| <b>Protein length</b>             | Gln32-Gly351                                                                                                                                                                                             |
| <b>Nature</b>                     | Recombinant                                                                                                                                                                                              |
| <b>Predicted molecular weight</b> | 35.6 kDa                                                                                                                                                                                                 |
| <b>Stability and Storage</b>      | Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8°C for one week. Store at -20 to -80°C for twelve months from the date of receipt.                                    |
| <b>Reconstitution</b>             | Reconstitute in sterile water for a stock solution. A copy of datasheet will be provided with the products, please refer to it for details.                                                              |

---

**Recombinant Proteins & Antibodies**

**Species** Mus musculus (Mouse)

**Shipping** In general, proteins are provided as lyophilized powder/frozen liquid.  
They are shipped out with dry ice/blue ice unless customers require otherwise.

**Note** For research use only.
