

Anti-Mouse TNC Antibody (81C6)

Summary

Catalog No. FMD64010

Clone ID 81C6

Host species Mouse

Conjugation Unconjugated

Species reactivity Human, Mouse

Form Liquid

Storage buffer 0.01M PBS, pH 7.4.

Concentration 1.18 mg/ml

Purity >95% as determined by SDS-PAGE.

Clonality Monoclonal

Isotype IgG2b, kappa

Applications ELISA, FCM

Myotendinous antigen, Neuronectin, GMEM, Tenascin, Tenascin-C, TN-C,

Target TNC, TN, Cytotactin, GP 150-225, Glioma-associated-extracellular matrix

antigen, HXB, Hexabrachion, JI

Purification Protein A/G purified from cell culture supernatant.

Endotoxin level Please contact with the lab for this information.

Accession Q80YX1

Recombinant Proteins & Antibodies

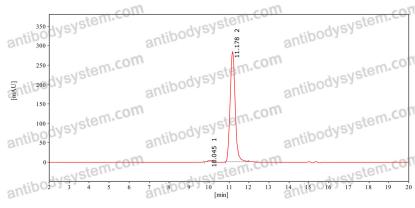

Use a manual defrost freezer and avoid repeated freeze-thaw cycles.

Stability and Storage Store at 4°C short term (1-2 weeks). Store at -20°C 12 months. Store at -

80°C long term.

Note For research use only.
